SUMMARY

Results-driven Frontend Developer with **1.5 years of experience** specializing in **React.js, Next.js, and Redux**. Skilled in developing scalable, high-performance web applications with a focus on **UI/UX, responsive web design (RWD), and API integration**. Passionate about **web performance optimization and accessibility** to deliver user-friendly digital solutions.

SKILLS

- **Frontend Development:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design (RWD)
- **State Management:** Redux (Reducers, Slices, Middleware), Context API
- **Backend & API Integration:** Node.js, RESTful APIs, Axios, Fetch API
- **Database Management:** SQL
- **Version Control:** Git, GitHub, GitLab
- **Other Skills:** Web Performance Optimization, Micro Frontend Architecture, Google Cloud DialogFlow, Code Review & Refactoring

PROJECTS

Code-playground – Scratch-like Visual Coding Tool
GitHub: github.com/YoteshMishra/CodePlayground2
Live: https://code-playground2.vercel.app/
Tech Stack: React.js, Tailwind CSS, Custom Logic Engine

- **Version Control:** Git, GitHub
- Designed and developed a Scratch-inspired visual coding environment using React.js.
- Built custom drag-and-drop code blocks (move, wait, repeat, think/say) with animated sprite execution.
- Implemented sprite collision detection and logic-swapping behavior for interactive learning.
- Focused on modular design, reusable logic blocks, and intuitive UI state management.
- Built specifically to demonstrate frontend architecture and UI logic skills to hiring teams.

WORK EXPERIENCE

Frontend Developer

Albatross Software Services Pvt. Ltd. | **Aug 2024 – Feb 2025**

- Developed an AI-powered chatbot using React.js and Dialogflow to handle user queries and reduce manual intervention.
- Built and optimized backend architecture using Node.js and Express.js for improved stability and faster response times.
- Collaborated with cross-functional teams to enhance chatbot performance by optimizing API handling.

Freelance Frontend Developer

Oct 2023 – July 2024

- Designed and implemented a dynamic UI dashboard using React.js and Tailwind CSS to streamline business processes.

- Integrated frontend and backend functionalities using Node.js for seamless user experience..
- Applied performance optimization techniques such as lazy loading, code splitting, and image compression.

UI Developer

Servion Global Solutions | **Sep 2022 – Sep 2023**

- Developed responsive and accessible UI components compatible with all major browsers.
- Applied object-oriented programming principles to improve code structure and maintainability.
- Worked with SQL to fine-tune database queries and improve data access performance.

RPA Developer
Servion Global Solutions | **Jul 2021 – Sep 2022**

- Managed and maintained robotic process automation (RPA) bots using NICE.
- Collaborated with clients to refine automation requirements, ensuring seamless integration and uninterrupted workflows.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science
Techno International, Batanagar | **Aug 2015 – Jun 2019**

CERTIFICATIONS

- **Full-Stack Development Certification** (JSPIDERS, Bangalore)
- **RCPL Certification in Java**
- **Advanced Java with Struts 2 Certification**
- **MyWbut Certification in C Language**

INTERESTS

- Exploring modern JavaScript frameworks (**Svelte, Vue.js**)
- Web performance optimization & accessibility best practices
- Contributing to **open-source projects & tech communities.**
