PROFESSIONAL SUMMARY

Frontend Developer with 1.5 years of specialized frontend experience and 3.6 years of total professional development experience building responsive web applications using React.js and modern JavaScript frameworks. Experienced in developing user interfaces for business applications and working with cross-functional development teams.

TECHNICAL SKILLS

Front-end Development: React.js (Hooks, Functional Components), Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, SPA Development, Responsive Web Design
State Management: Redux Toolkit, Context API
Back-end & API Integration: Node.js, RESTful APIs, Axios, Fetch API
Database: SQL
Version Control: Git, GitHub, GitLab
Performance Optimization: Code splitting, lazy loading, image compression, Web Performance Optimization
Other: Google Cloud Dialog-flow, Code Review & Refactoring

PROFESSIONAL EXPERIENCE

Frontend Developer

Albatross Software Services Pvt. Ltd. | Aug 2024 – Feb 2025

- Developed AI chatbot interface using React.js and Google Dialogflow for customer support automation
- Optimized API response handling and improved system performance
- Collaborated with backend development team to integrate chatbot functionality with existing systems

Freelance Frontend Developer

Self-Employed | Oct 2023 – July 2024

- Built responsive business dashboard using React.js and Tailwind CSS for inventory management
- Implemented performance optimizations including lazy loading and image compression
- Improved application loading speed and overall user experience through code optimization

UI Developer

Servion Global Solutions | Sep 2022 – Sep 2023

- Developed cross-browser compatible UI components for customer service applications
- Wrote and optimized SQL queries for efficient data retrieval
- Resolved browser compatibility issues across major web browsers

RPA Developer

Servion Global Solutions | Jul 2021 – Sep 2022

- Maintained robotic process automation bots using NICE platform
- Collaborated with clients to optimize automation workflows and improve efficiency
- Ensured reliable bot performance and minimal downtime

PORTFOLIO PROJECTS

MarketNest - E-commerce Platform

Tech Stack: React.js, Tailwind CSS | [Live Demo](#)

- Built complete e-commerce application with product catalog, shopping cart, and user authentication
- Implemented responsive design for optimal user experience across all devices
- Developed reusable components for product listings and checkout functionality

Code-playground – Visual Coding Tool

Tech Stack: React.js, Tailwind CSS | [GitHub](#) | [Live Demo](#)

- Built interactive drag-and-drop coding interface with multiple code block types
- Implemented sprite animation system with collision detection functionality

- Designed modular component architecture for easy feature expansion

Case Tracker Pro - Case Management System

Tech Stack: React.js, Tailwind CSS | [Live Demo](#)

- Developed case management dashboard for tracking and organizing legal cases
- Built intuitive user interface for case data entry and status monitoring
- Implemented search and filter functionality for efficient case management

---

EDUCATION

Bachelor of Technology - Computer Science
Techno International, Batanagar | 2015 – 2019

CERTIFICATIONS

- Full-Stack Development Certification (JSPIDERS, Bangalore)
- Java Programming Certification (RCPL)
- Advanced Java with Struts 2 Framework

Currently Exploring: Vue.js framework, advanced React patterns, and web accessibility standards
